

Central/Southern Regional Community Consultative Committee Meeting

March 2017

Welcome

Outline of today's meeting:

1. Introductions
2. Adoption of minutes
3. Business update
4. Local Content update
5. Break
6. Social Investment feedback update
7. Community feedback
8. Update on QGC research partnerships

Safety moment: Intervention

What will you say/do in a good intervention?

What does a bad intervention look like?

- Friendly
- Respectful
- Open questions
- Give time
- Listen to the answers
- Evidence based

- Blaming
- Shouting
- Telling
- Embarrassing
- Confronting
- Finger pointing

- Show your concern – What would happen to you?
- Question and discuss. Keep listening. Don't lecture.

Business update

- Further lease areas have been opened by the Queensland Government for tender for domestic gas production.
- The link to the government website is below where you can find a map

<https://www.business.qld.gov.au/industries/invest/mining/exploration-incentives/current-tenders>

- QGC is examining the blocks and conditions now that the details are available before deciding whether or not to formally participate in the bidding process.

Central/Southern Operations Update

- Windibri Flare Installation project 2017
- Dalby Trade Futures Program – commencement of 7 x grade 11's.
- Socio-economic baseline update
- Ongoing field development

Charlie Development

- Progress on schedule, with mechanical completion of:

- Charlie Pump Station
- Woleebee Creek Sub Station
- Charlie and Phillip Ponds

- Charlie project activity will be declining over the coming months as the project heads towards completion.

Charlie Field Compression Station – view from side

Community Tour of Charlie Field – of course, the bus was parked safely when this photograph was taken
